DESCRIPTION

The Etendards are static panels installed at two strategic locations in Monaco: Avenue d'Ostende (6 double-sided panels) and Tunnel Louis II (10 double-sided panels).

The Louis II Tunnel connects the Larvotto beaches and its hotels to the Port district. The tunnel is used by a business audience during professional events (for example to connect the Fairmont to the Yacht Show, etc.) as well as a leisure audience to access the Rainier III auditorium.

The 10 double-sided faces are also located in direct proximity to the new [Mareterra](#) eco-district.

These locations affect both pedestrian and automobile traffic and offer to ensure a repetition of the message thanks to the installation of panels in a row.
